

What we offer
EXPERTISE

Our treatment is based on intensive, high-frequency psychotherapy and a variety of biological methods. Our patients benefit from primary nursing, numerous additional treatment options, as well as in-house support from our social workers. We provide our patients the opportunity of inpatient stays or outpatient treatment.

In good hands
OUR SERVICES

DEPRESSION AND BURNOUT

For affective disorders and stress-induced illnesses: relationship-oriented treatment that promotes mindfulness and self-care, and seeks to find a way forward in collaboration with the patient.

PSYCHOSOMATICS AND PAIN

For psychosomatic disorders, with a focus on female-specific, gynaecological and pain disorders: intensive, comprehensive and tailored psychotherapy, coupled with careful medical monitoring.

ANXIETY AND EMOTIONAL REGULATION

For young women with personality disorders (e.g. BPD), anxiety disorders, obsessive-compulsive disorders and/or post-traumatic stress disorders: the focus is on a sustainable therapy with intensive, behavioural and integrative approaches.

ACUTE WARD

Our acute ward, which can be closed on request, provides immediate help and comprehensive care. Depending on their progress after the acute phase, patients may continue their recovery in another of our specialist wards.

PRIVATE WARD

We offer comfortable and modern one and two-bed rooms in the Villa Paracelsus for patients with various psychological disorders and supplementary insurance. The villa has its own garden and a large terrace with stunning views over Lake Zug. Here, you can enjoy an exclusive, sophisticated atmosphere and a broader range of hotel and wellness offers.
